

MARVIN

ARCHITECTURAL HARDWARE

**EXCEPTIONAL HARDWARE
OPTIONS FOR:**

**Entry Doors
French Doors
Patio Doors
Windows**

YOU want your home to express your style and your standards.

That's why you selected Marvin Windows and Doors and Marvin Entry Doors. Now a new collection of designer handles is readily available, offering a wide array of design options to complement your architectural style and complete your vision. These hardware selections look great with all our products. Just as importantly, they are engineered to operate dependably with your windows and doors.

The products you see here illustrate a simple truth regarding the design elements of form and function: innovation and tradition are not opposites. Instead, innovation is the natural extension of an exceptional dedication to craft.

Ashley Norton

The Ashley Norton Collection features striking traditional and rustic hardware. Characterized by flowing lines and intricate detail, these designs combine the best styles of the past and the smartest innovations of present. Select a traditional Oil Rubbed Bronze, Dark Solid Bronze, or White Solid Bronze living finish that acquires a rich patina with age. Or opt for one of two Physical Vapor Deposition (PVD) finishes specially formulated to resist corrosion, abrasions and fading.

HANDLE FUNCTION Swinging multipoint handle designs available in active panel key, active panel non-keyed, inactive panel multi-point, and inactive panel dummy functions.

Sliding door handle designs available in active panel key, active panel non-keyed, and inactive panel dummy functions.

Entry Mortise handle designs available in active panel key and inactive panel dummy functions.

SCREENS Swinging French door – Ashley Norton levers are not recommended for use with sliding screens due to lever projection. Use swinging screens with these levers.

Sliding French door – Ashley Norton pull handles are recommended for use with sliding screens.

- NOTES**
- Not all available handle, escutcheon, finish combinations are pictured. See chart for details.
 - Swinging multi-point and Entry Mortise handle sets can be specified to accommodate 1³/₄" or 2¹/₄" panel doors.
 - Entry Mortise grip-by-lever handle sets feature a full mortise lock with the entrance with egress function. This is characterized by traditional door latch stop/release buttons on the faceplate. Entry Mortise hardware is not tested for WDMA design pressure or impact certification.

* USIOB living finish on a solid brass substrate.

** Dark and White Solid Bronze finishes is a rustic, character grade, living finish, produced utilizing a traditional bronze casting process.

*** Physical Vapor Deposition (PVD), a static enduring finish.

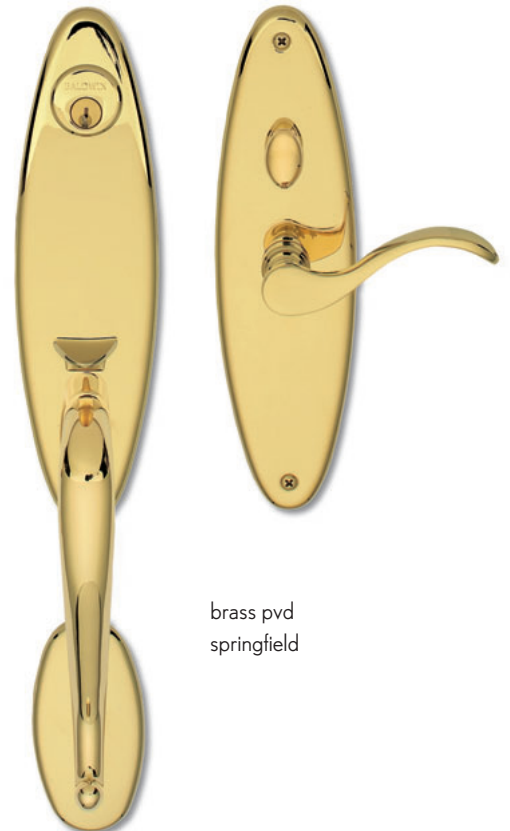

† Interior entry mortise Oil Rubbed Bronze arch escutcheon is 13" tall.

BALDWIN®

For more than sixty years, Baldwin has crafted remarkable solid forged brass hardware for fine homes. Besides offering a broad selection of living and lacquered finishes, Baldwin helped pioneer high performance Physical Vapor Deposition (PVD) finishes. Their vintage line includes Greek Revival, Colonial, Victorian, and Rustic architectural and decorative products. When you select Baldwin, you select lasting quality, luxurious style, and a legacy of superior craftsmanship that makes a statement.

 - Entry Mortise grip-by-lever handle sets feature a full mortise lock with the entrance with egress function. This is characterized by traditional door latch stop/release buttons on the faceplate. Entry Mortise hardware is not tested for WDMA design pressure or impact certification.

* US10B living finish on a solid brass substrate.
 ** Physical Vapor Deposition (PVD), a static enduring finish.

Designs inspired by traditional French country architecture are the hallmark of the Bouvet® LaForge Collection. Established in 1884, Bouvet combines traditional hand-forging methods with state-of-the-art manufacturing processes. To take just one example, their Cementex Treatment integrates zinc particles onto steel hardware at high temperatures to inhibit rust and discoloration. This combination of innovation and craftsmanship results in amazingly beautiful, remarkably durable wrought-iron handle sets.

NOBILUS

Luxury is detail.

The stately and intricate handle sets of the Nobilus collection reflect both modern precision and old-world handcrafting. Each piece is investment-cast in solid bronze, a forging method that produced the most precise and intricate results possible in bronze hardware. Handle sets are then given a burnished natural finish or hand-rubbed oil patina finish. As a result, they become even richer and more beautiful with every use.

HANDLE FUNCTION Swinging multipoint handle designs available in active panel key, active panel non-keyed, inactive panel multipoint, and inactive panel dummy functions.

Sliding door handle designs available in active panel key, active panel non-keyed, and inactive panel dummy functions.

Entry Mortise handle designs available in active panel key and inactive panel dummy functions.

SCREENS Swinging French door – Nobilus levers are not recommended for use with sliding screens due to lever projection. Use swinging screens with these levers.

Sliding French door – Nobilus pull handles are recommended for use with sliding screens.

- NOTES**
- Not all available handle, escutcheon, finish combinations are pictured. See chart for details.
 - Swinging Multipoint and Entry Mortise handle sets can be specified to accommodate 1 3/4" or 2 1/4" panel doors
 - All sliding doors are factory fitted with door stops that reduce the net clear opening by 3/4" because of lateral projection on the TLO and HLO pulls.
 - Entry Mortise grip-by-lever handle sets feature a full mortise lock with the entrance with egress function. This is characterized by traditional door latch stop/release buttons on the faceplate. Entry Mortise hardware is not tested for WDMA design pressure or impact certification.

* Due to interference with the keyed cylinder, only the HLO pull is available in the active panel key function for sliding patio doors. No restrictions exist for sliding French doors.

Valli&Valli

One look at the cool modern lines and classic curves of the Valli&Valli Collection and you recognize their uniquely Italian flair. Each elegant handle set is crafted in solid brass or stainless steel and finished to lasting perfection. While inspired by prestigious designers, art deco architecture, and contemporary fashion, Valli&Valli draws on seventy years of experience in manufacturing to produce strikingly stylish pieces whose function is as enduring as their form.

 - Entry Mortise grip-by-lever handle sets feature a full mortise lock with the entrance with egress function. This is characterized by traditional door latch stop/release buttons on the faceplate. Entry Mortise hardware is not tested for WDMA design pressure or impact certification.

HANDING GUIDE | ENTRY DOORS AND FRENCH DOORS

Marvin Architectural Hardware handing is always determined from the outside facing of the door. The side on which the hinges are installed defines the handing of the hardware.

Conversely, to determine the handing of Marvin Swinging French or Entry Doors, straddle the sill with your back to the hinge of the active panel. From this position, whichever hand you use to grab the door panel determines the handing of the active or primary panel. If applicable, the handing of the inactive or secondary panel is the opposite.

Please refer to the Handing Guide above when ordering Marvin Architectural Hardware products. Note the differences between Door Handing and Hardware handing, and between inswing and outswing doors.

HARDWARE WARRANTY

Marvin Architectural Hardware products are warranted to be free from defects in manufacturing, materials and workmanship causing mechanical failure of the hardware functionality for a period of ten (10) years from the date the product was originally purchased. Physical Vapor Deposition (PVD) finishes are warranted against tarnishing, pitting, corrosion or discoloration for a period of ten (10) years. Non-PVD finishes are not covered under the ten (10) year warranty.

Marvin Architectural Hardware products are subject to further conditions and exclusions set forth in your Marvin Windows and Doors Limited Warranty. For a complete Limited Warranty contact your local Marvin retailer or visit our website at www.marvin.com.

*The Marvin Entry Door warranty applies to entry mortise and multipoint hardware for entry doors. Please reference the Marvin Entry Door warranty for additional details.
