DOUBLE HUNG BALANCES 1975 TO PRESENT

When ordering replacement balance tubes, provide the following information:

1. Provide an original order number
2. Provide a part number*. Part numbers can be determined by using the balance size (see illustration) and referring to the chart on the next page.
 NOTE: Size of balance is imprinted on tube.
3. Specify top or bottom sash. The balance tube for the top sash is in the exterior track and has a short S-hook. The balance tube for the bottom sash is in the interior track and has a long S-hook.
4. Specify the quantity. Do **NOT** specify as *pairs* or *sets*. If one tube is needed, specify: qty 1. If four tubes are needed, specify: qty 4.

* In some applications a part number will not be available. In this case, please provide as much of the above information as possible along with the glass size and glass make-up.

NOTE: If an energy panel was installed after the original purchase, a heavier balance may be necessary.

NOTE: S-hook(s) are provided when balance tubes are ordered.

E-Z TILT BALANCED CLUTCHES ARE COLOR CODED

Part numbers listed below are for one balance only. Each sash requires two balances.

Specify top or bottom sash. T = Top Sash B = Bottom Sash
